

# HYDRAULIC POWER UNITS

## Custom Hydraulic Power Units

For more than 60 years, we have manufactured standard and customer hydraulic power units in our Gulf Coast facilities, to be used all over the country. Our units are customizable to meet your exact needs and come with our industry-leading 24/7/365 customer service and support. We also offer engineering support, as well as on-site installation and start-up services for any system.

### Available options include:

- HPU's ranging from 1 HP to 150 HP
- Pressures up to 15,000 psi
- Flow rates up to 300 GPM
- Open or closed loop piston pumps
- Fixed gear pumps
- Fixed or variable vane pumps
- Steel, stainless or aluminum reservoirs
- JIC flat top, L shaped, or T shaped reservoir configurations
- Stationary, skid base or crane hooks.
